The UNSW Learning & Career Hub offers workshop programmes throughout the academic year on a wide variety of academic skills. Some workshops focus on, or explain, different tasks such as essays, oral presentations, reports and research papers. Other workshops help students develop particular skills essential to academic study such as critical thinking, referencing and understanding what plagiarism is.

Academic skills workshops

Develop your skills in these short classes held throughout the academic year

Academic Skills Plus

General Education course to help students improve their academic skills

Online academic writing workshop

Self-access writing skills workshop series delivered online
What students say

"The workshops were informative and also presented in a very simple way..."
"They were of very high quality, pertinent, very well delivered. Not least, they were entertaining and a pleasure to listen to."

"It was a mixture of tips and practical hands on work which I’m sure will be helpful for my masters thesis. I’d like to look into more of these courses."

"Well-constructed with relevant information, great delivery, engaging presenters."

Upcoming workshops

Learning & Career Hub workshops are designed for undergraduate and postgraduate students. A small selection are also specifically designed for students whose first language is not English. Academic skills workshops are typically one to two hours in duration. Some workshops are run as a series and may be held once a week for two to seven weeks. That is, they are developmental. Others are run as 'once only' workshops. Workshop sizes are usually limited to a maximum of 30 students to maintain a fairly informal structure.
