Student Support Advisors can assist students to explore opportunities and provide advice to support their professional development.

Professional development encompasses not only academic degrees, but informal learning opportunities which are offered throughout UNSW such as creative writing groups.

We can assist students in the following ways:

- Assist students to access groups or services within UNSW to support professional development.
- Provide workshops which explore life paths and professional development.
- Support students to develop goals and strategies to reach their career objectives.

**Contact Student Support Advisors**

- You can book an appointment with an advisor here.
- Alternatively you can email your enquiry to advisors@unsw.edu.au
