Feeling safe and having a roof over your head are essential to your personal wellbeing.

Perhaps you have found yourself homeless, your lease is ending or has been terminated or you're simply not happy in your current home situation.

Whilst studying at University, having a stable living arrangement can enhance your wellbeing and your ability to focus and help you get the most out of your studies.

If you're currently experiencing issues with your living arrangements, make an appointment to see an Educational Support Advisor.

Our services include:

- Assisting students in accessing crisis or temporary accommodation.
- Providing advice on dealing with situations arising from shared accommodation.

**Contact the Educational Support Service**

Educational Support Advisors are available in person, over the phone or via email.
