About SES

The Student Experience Survey (SES) provides current higher education students with the opportunity to talk about their experience of the institution they are enrolled in. The results of this research are used to help UNSW and the government gain insight into students’ experiences, and to monitor and improve teaching and learning in Australia.

The SES is an Australian Government Department of Education and Training initiative which is carried out by The Social Research Centre, forming part of the suite of higher education surveys under Quality Indicators for Learning and Teaching (QILT). The SES takes place in August of each year.
