Congratulations your Learning Abroad program is about to start!

It is important you read through the relevant Pre-Departure Tutorial prior to the commencement of your program as they contain lots of useful information.

Once travel is able to resume, you should complete the following before making any arrangements to travel overseas.

1. Read through the Pre-Departure Tutorial
2. Read the Student Travelling Overseas - Personal Safety and Risk Assessment Guide
3. Register your travel with International SOS

The Global Society
UNSW has partnered with The Global Society to provide information to students undertaking an international study experience. The Global Society provides resources, cost saving benefits and facilitates peer-to-peer connections so that you can learn from other students and, in turn, have the best overseas experience possible. Your membership is already paid for by UNSW. All UNSW students interested in studying overseas or are about to go overseas are encouraged to Join the Global Society.
