Who can join this Peer Mentoring Program?

The UNSW Business Society Peer Mentoring Program is for all new first year undergraduate students enrolled in a business degree. Additionally, we would also include transfer students to the Business School (ie. anyone who is in their first year of a Business School related degree.)

Program description

The program provides a wide range of social, sport and academic engagement support for mentees.

Social

Through fostering mentee interactions and forging new friendships, mentees undergo a smooth transition into university life. It establishes a welcoming and continuing support structure for all mentees inclusive of mentees, mentors and coordinators. Mentors also provide a variety of tips and advice, ranging from the best cheap places to eat on campus to UNSW services available to students.

Sport

Through the Sports and Study Day, mentees have the opportunity to participate in friendly sporting competitions. Furthermore, the Closing Event will entail competition-based activities that engages students whilst facilitating inter-group bonding.

Academic

Academically, mentors provide advice, recommendations and support regarding subject choices and majors. The Sports
and Study Day during the Mid-Semester Break provides students with the opportunity to access academic support from mentors and high-achieving students, including: subject-specific assistance, general study tips and helpful resources.
