Who can join this program?

If you are a first-year student studying an Information Systems degree then this is the mentoring program for you! Information Systems degrees include Bachelor of Information Systems, Bachelor of Information Systems (Honours) and
Bachelor of Commerce / Information Systems. We also welcome students who are doing Information Systems as a second major or have an interest in Information Systems or technology in general.

Program Description

BITSA Buddies is a unique program offering one-on-one/one-on-two peer mentoring session with an older Information Systems Student. Mentees are paired with a handpicked mentor and will have flexible sessions as well as exciting group activities throughout the Term. In the past, the program has run day-hikes and rock-climbing sessions. This program is a great way to meet some of the amazing older students within the Information Systems community.

When does the Program run?

BITSA Buddies runs during Term 1 from Week 1 to Week 10.

When are registrations open?

Registrations for mentees open Monday 11th February and run throughout O-Week and Week 1.

I'm a new student, how do I register to participate in the program?

Register by coming to our O-Week stall located on the Main Walkway on Kensington Campus. From there we’ll be in contact!

I'm a senior student, how can I become a mentor?

Unfortunately, mentor applications for 2019 have closed. However, if you have been trained in the past by UNSW Peer Mentoring, and would like to join the reserve list of mentors, email education@bitsa.org.au and we can sort something out for you!

More information:

Email: Send your peer mentoring queries to Vice President Internal at education@bitsa.org.au and we will be in touch.
