Moodle - Planned Outage

Published: 1 March 2018

As you may be aware, UNSW Moodle has been experiencing performance issues throughout this week.

Whilst a number of actions were undertaken in an attempt to improve performance, issues are still continuing to affect students.

For this reason, an emergency upgrade to Moodle's infrastructure is planned for tonight, from 12:00am to 7:00am (AEDT) Friday 2 March 2018.

UNSW Moodle will be unavailable for approximately 7 hours.

We know how problematic this has been and would like to thank you very much for your patience and understanding.
