The International Honors Program (IHP) is a collaboration between Stanford Summer Session and specific international teaching and research institutions.

**Summer 2019 Program Dates**
June 22 – August 18

**About the Program**
This year, IHP students will come from 27 different universities in 17 countries around the world. The program combines top-notch academics with IHP exclusive activities that explore the rich cultural, social, and geographical resources of the San Francisco Bay Area. The IHP experience is invaluable, especially for students who choose to pursue graduate or professional training in the United States.
Academic Standards

As a part of IHP, students have the opportunity to academically excel at one of the most competitive universities in the United States. Summer courses feature smaller class sizes, accessible instructors, and a diverse student body. IHP students are required to enroll in at least 8 units and can choose from more than 170 courses offered by 40 departments within the schools of Humanities and Sciences, Earth Sciences, and Engineering.

IHP students are required to:

- Enroll in at least 8 units, 7 of which must be from academic departments.
- Take courses for a Letter Grade, wherever possible.
- Earn a B or higher in all courses, if a Letter Grade is possible.

Residential Life

The 2019 IHP cohort will reside in a shared residence exclusively for IHP students. You will live in the same residence for the duration of your stay on campus and will enjoy the opportunity to engage in programming designed especially for you. This will encourage the development of a unique and tight knit international community.

Program Requirements

To be eligible to apply, you must:

- Be selected by your home institution.
- Be at least 18 years of age by the start of the program (June 22, 2019).
- Have graduated from high school, secondary school, or an equivalent.
- Have successfully completed at least one term of college or university courses following graduation from high school prior to applying. (Students who have already graduated from college or university are also eligible.)
- Be able to verify fluency in the English language, using one of the methods described in the English Language Proficiency section on the International Students page.

IMPORTANT: You must complete your application by March 13, 2019 in order to be able to enroll in classes starting April 14, 2019. To begin your application, please retrieve the application link from your home university's IHP coordinator. Please do not fill out the regular Summer Session application, which is available on our website.

For more information about IHP, please email summerhonors@stanford.edu or contact your home university's coordinator.

Enrichment Programs

Aside from the abundant programming IHP students are offered while on campus, there are Enrichment Programs all Stanford Summer Session students can participate in to enhance their Summer Quarter.

Silicon Valley Innovation Academy (SVIA)

SVIA is an exclusive opportunity for 120 students to experience a team-based moonshot project while at Stanford. Across seven weeks, SVIA participants hone their leadership abilities in a team, intent on exploring, prototyping, and communicating a world-changing innovation opportunity. Stanford Summer Session supports this journey with a mix of weekly, hands-on coaching sessions and real-world deliverables. The program culminates with the SVIA Innovation Experience, where each team has the opportunity to present their idea.
HOW TO APPLY FOR SVIA

You must apply for SVIA as part of your Summer Session application. Once the application is submitted, there will not be another chance to apply. There are no exceptions to this policy.

Intensive Studies

Stanford Summer Session's Intensive Studies program offers students the opportunity to join a cohort of students and faculty and engage deeply within one of eight areas of study. These courses are a part of the regular Summer Quarter curriculum and are open to all students who have completed any stated prerequisites. For many of the areas of study, academic work is enhanced by a speaker series featuring leading scholars in their field. Upon successful completion of the requirements for a Summer Intensive, students receive an official Document of Completion.

HOW TO APPLY FOR INTENSIVE STUDIES

You can register for a specific Intensive after you have been admitted to Summer Session. Please follow the instructions included as part of your Acceptance Process. There is no additional fee required to participate in Intensive Studies.

NOTE: If your institution does not award transfer credits, you are highly encouraged to participate in Stanford Summer Session's Intensive Studies program.

Apply

Students should contact advisor4globaled@unsw.edu.au for more information about the application and nomination by 27 February 2019.

Complete this UNSW Overseas Short Course Application Form and Transfer of Credit Form by 27 February 2019.

Risk assessment

All programs involve some degree of risk to participants. If you choose to source a provider on your own, please remember to do some research on them first and ensure that they are a legitimate organisation and that the product they offer will definitely meet your requirements. Students are therefore advised to undertake their own risk assessment before departure and any participation in these programs is at their own risk.

Before departure

All students should register their travel with UNSW. You should also undertake a risk assessment before heading overseas. For more information see - How to prepare for departure.
