MCIC Foundations run over 200 events and workshops every year to introduce you to methodologies of entrepreneurship, creative thinking and making.

Learn creative problem-solving techniques and how to design user-centric solutions or join a 2.5-day hackathon to solve a real world problem with like minded people.

Transform your designs into 3D printed objects or laser etch an artwork, learn how to make the most of our makerspace kit at a shop tools session.

And if you’ve already got an idea for a startup, come along to a pitch night and propel your venture to the next level.

Not an entrepreneur but want to learn new skills and make new friends? Come along to one of our workshops. They’re fun and free!
Upcoming events

First Pitch Night of the year!
Monday 16 March 2020
6pm-8pm
Have an idea that could change the world? Then pitch it at our Pitch Night! Pitch Night is a super friendly and informal competition where you can pitch your idea to an audience of your peers and a judging panel. Prizes to be won.

Zero Waste Workshop
Wednesday 18 March 2020
3pm-5pm
Join us for a fun and hands on look at plastics and other everyday objects that can / should be recycled. We will be shredding, Injection moulding, and vacuum forming common everyday plastics as we explore and discuss how we can all do more as we strive for a truly circular economy.
Open to all UNSW Students, Staff and Alumni.
Please note: you must wear closed-toed shoes to be allowed entry to this workshop.
