Changes are being made to Moodle access and sign on

Published: 26 June 2020

**Moodle Single Sign On (SSO) will be live from 9 July 2020**

This is a significant step to providing a technology enabled learning environment with a seamless Moodle login experience whilst enhancing security and protection of your UNSW identity and related information.

This launch will be the first of many milestones in the UNSW IT SSO and Identity Management road-map.

**How will the SSO experience work?**

There are two user experience journeys for SSO – first time sign on for staff and students and subsequent single sign on.

**For first time single sign on access**
1. Click Sign in button
2. Enter your zID1234567@ad.unsw.edu.au
3. Enter your password
4. You are now signed into Moodle

For all subsequent access

1. Click on ‘Agree and Sign On to Moodle’
2. Moodle is automatically signed in
