The UNSW Career Discovery Mentoring Program provides students with the opportunity to discover potential careers through a mentoring relationship that facilitates greater self-awareness of skills, knowledge, experiences and attributes.

The UNSW Career Discovery Mentoring Program connects UNSW students from their second year of study with established industry professionals, providing students with a significant opportunity to focus on their career development.

Over a 5-week mentoring period, students will receive guidance from mentors and gain knowledge of industries and sectors, career options, industry trends, workplace culture and dynamics.

Students will also gain insights into their skills, knowledge, values and attributes, as well as reflect on their experience and learn from the experience of mentors. The program provides the opportunity to build personal and professional networks with mentors and fellow mentees.

Duration

Term 3 (September - October), 20 hours total commitment.

APPLY NOW

Benefits of the program

- Explore multiple industries/sectors to help discover a career path that’s right for you?

- Build a relationship with an established industry professional who will provide support and guidance?

- Build confidence in developing personal and professional networks?

- Develop employability skills such as: communication, interpersonal, leadership and organisational skills?

- Take part in a program that offers the opportunity to engage 100% online or face to face?

- Become part of the Alumni Connect network?
