Built Environment Exchange Information Session

Are you studying Built Environment and keen to take part in an international exchange?

Studying with an overseas university as part of your degree is an exciting opportunity that will not only enhance your UNSW experience but will greatly benefit your career prospects. You get to meet new people, study in a different environment and gain a whole new experience!

The session will run through the basics of in-person and virtual exchange such as; what is exchange, how to plan appropriately, Faculty specific information, what support is available to you and how to apply among other things. Come along and start planning your exchange experience! This webinar will allow you to post your questions and get answers. We recommend you look at the Student Exchange Moodle Tutorial before attending and come ready with your questions.

Please note any travel is subject to UNSW approval.
