Here you can find information on scholarships for current students at UNSW.

**UNSW Scholarships**

Scholarships and awards are a great way to get financial support while studying at university. At UNSW we offer a wide range of scholarships throughout the year and encourage our students to check what's available for application on-line.

**Scholarships for exchange**

There are a number of financial awards available for student exchange. Most awards are awarded on the basis of academic merit. Scholarships are usually confirmed when exam results for the session prior to exchange are available.

**Postgraduate research scholarships**

Scholarships are available to support current and new postgraduate research candidates at UNSW. The scholarships provide a range of benefits such as annual stipends, living allowances and coverage of tuition fee costs, as well as funding and supplements for travel.

**UNSW Co-op Program**

At UNSW we develop students into professionals. And the UNSW Co-op Program is designed to do just this. With such amazing opportunities it is a highly competitive scholarship only available to select high performing undergraduates in Business, Engineering, Science and Built Environment.
