This page explains how you can view your UNSW co-curricular activity record on the myUNSW Co-curricular Online Service (CCOS).

**UNSW Advantage** administers a range of co-curricular activities approved for inclusion on the **Australian Higher Education Graduation Statement (AHEGS)**, received on graduation.

You can use CCOS to:

- View and print an unofficial interim summary of your co-curricular activities
- Request that some completed co-curricular activities be approved and added to your record - not all activities may be available for selection online. Each activity provider determines which of their activities will be open to students for online request.

**Conditions**

- **CCOS is available to currently enrolled students only.** Students on program leave or who have completed program requirements and are conferred to graduate will not be able to access CCOS.
- The CCOS record **does not** contain details of scholarships, prizes or International Exchange study.

**Access to CCOS**

Current students can access CCOS at [https://ccos.advantage.unsw.edu.au](https://ccos.advantage.unsw.edu.au) or via myUNSW (My Student Profile tab > My Student Services > Online Services > Co-curricular Statement).

---

**Note!** If you are accessing CCOS from a non-UNSW computer then you will need to enter the UNSW active directory domain name in front of your student zID: **At the login prompt enter adunsw[your 7-digit zID]** (e.g. adunsw\z9876543), **then your zPass**.

---

**Queries**

If you believe your co-curricular activity record is incomplete or incorrect you must contact the relevant activity provider.
