At UNSW we have accommodation options to suit all living styles. Whether you want to live on or off campus, prefer apartment living or thrive in the community feel of a college, on this page you will find all the accommodation information you need to make an informed decision.

Select below if you are interested in on campus or off campus accommodation:

**On campus living options**

Living on campus while you are a student has many benefits. Not only is every campus facility within your easy reach, it is value for money, safe, and provides a sense of community in a fun and friendly environment.

We offer a variety of rooms and apartments to choose from including fully or partly catered colleges to the more autonomous self-catered apartments, that are located on (or very close to) the UNSW campus. These housing options include University owned and managed colleges and apartments or through affiliated private colleges that UNSW works with.

Depending on your living style and needs you can pick an option that suits you best. Since demand for on campus accommodation is really high and the seats limited, you should pre-arrange it at the earliest.
